

ENVIRONMENT POLICY

MHT Europe are an industry leading manufacturer of fabricated and cast Fifth wheels for the commercial vehicle market. We are committed to minimising the impact of our activities on the environment.

In order to achieve this goal MHT Europe will:

- Commit to fulfilling our compliance obligations
- Commit to the protection of the environment including the prevention of pollution and the minimisation of plastic waste
- Ensure the responsible use of energy throughout our business, including conserving energy and improving energy efficiency
- Train, educate and inform our employees about environmental issues that may affect their work
- Promptly correct any practice or condition not in compliance with this policy

This environmental policy is the company's statement of environmental goals which outline our commitment to continual improvement of environmental management and performance.

Our environmental management system is designed to meet the requirements of BS EN ISO 14001:2015, the scope of which covers all of MHT Europe's activities and ensures that this policy is reviewed and revised by senior management as part of an annual review of our environmental performance.

Whilst MHT Europe requires all members of staff to comply with the requirements of our EMS, active encouragement is given in adopting a positive approach towards the policy's implementation as well as its continual improvement in effectiveness.
